FLOWER THIEVES GETTING IN THEIR WORK EVERY NIGHT.

Republicans Will Not Put Up a Legislative Ticket This Fall-Other Souths side Items.

MANCRESTER BUREAU RIGEMOND TIMES, No. 1112 HULL STREET, BEATTLE BLOCK. There is great complaint among the useholders of the city about the petty flower thievery going on in this cit. On Porter street especially has this kind of thleving been going on for some time past, and the people are becoming very much annoyed. These rogues will go into a gentleman's yard one night and pull up one kind of flower and the next night will be there and pull up another until all in the yard have been taken. The people who have been robbed are under the impression that this work is done by boys, but whoever the perpetraters are must stop or they will get into trouble.
THE REPUBLICAN PARTY.

THE REPUBLICAN PARTY.

The Republicans of this Legislative District will not put up a ticket this fall for candidates for the House of Delegates. In talking to a prominent member of that party yesterday a Times reporter was informed that the regular Republican party had no idea of presenting a candidate, but at the same time he could not tell what Colonel Lamb's faction would do. He did not think they would act in the matter. The party in this city looks upon Mr. Park Agnew as the State chairman and will be governed by him.

Mr. C. F. Fisher, the barber, had two small black boys summoned before the court for throwing rocks in the streets. The complainant said this kind of sport had been going on for a long time, and on one occasion they threw a rock in his shop and broke a handsome mirror. On Friday they were at it assid, when he caught one of them and held him until an officer arrived. While Mr. Fisher was boiding the boy he scratched, fought, and attempted to bite, and was pretty hard to hold. On account of the age of the boys they were ordered to be whipped in the presence of a court officer.

Posimaster D. L. Tonev has received another invoice of goods for the free delivery of mail. This time it is the letter boxes. There are thirty of them here now that will be used in this branch of the service as soon as orders are received from the powers in Washinston.

A HOPELESS APPEAL.

The Constitutional Right to Own Slaves o

No Avail Against the Decree of War. Sditor of The Times: Sir,-Without siming to take side in the ontroversy between Sanator Reagan and Editor Watterson as to the position of ex-President Lincoin on the subject of compensation to our slave-owners for the contiscation of their slave property, we will assume that in a sense both are right. That is to say: there was no of incal and authoritative proposition made at the Fort Monroe conference to pay the sum of \$40,00,000 to the slave owner. Yet Fresident Lincoln's private made at the Fort Monroe conference to pay the sum of \$40,00,000 to the slave owner. Yet Fresident Lincoln's private made and yet of the slave owner. Yet Fresident Lincoln's private made and yet of the slave of the sum of \$40,00,000 to the slave on the slave of the United States was showed upon the country and made the reat stain upon our rossitutional history. Can it be believed that the national sutherities of the United States will permit such a monstrosity to remain much longer as a proclamation and example of robbery to the civilized world? If they do, then the United States will not be worthy of an honorable name amongst the nations of the earth! The people of our country should ever be directed in the paths of justice and honor! How can they when the fourteenth amendment is ever staring them in the face? The government of the United States has lad the use of the confiscated slaves for thirty two years and used them as voters for partition? We all know that said amendment was assumed to have been adopted by the open such parts of the Constitution which the Presidents and Congress have sworn to support! Let it not be said. How can it be helped when the four teenth amendment is part of the Constitution which the Presidents and congress have sworn to support! Let it not be said. How can it is a support to the little property for the confiscation of the slave. The said was the total of the state of the fourteenth amendment and the word of the state of the state of the fourteenth of the save confiscation of the luni

ough the fourteenth amendment and annual assignment of our part of the ernal Revenue to United States penus, would be far more popular, that steady depletion for pensions many which are deemed generally to be udulent. As to the propriety of such tions, the obvious that no party question the state into patitions asking justice

raddient. As to the property of san retitions. It is obvious that no party question could enter into petitions asking justice of Congress in view of the Constitution that prevalled before the war, and which with the amendments then existing had no sectional hostility in them! Something is surely needed to more creditably hind our sections—in the nature of just benefits from the national appropriations. He that "asketh receiveth." Senator Hill, of New York, very recently asked the abolition of the law prohibiting Southern Confederates from holding offices in the United States Army, and succeeded. There was no impropriety in his action, and there would be none in the petitions here in suggested. As matters now stand the stoom of the linear Revenue collection is noarly all expended out of Virginia. This with, the local taxation, is impovershing the great body of our people! Ireland, for example, is better off, for nearly all of the taxes imposed there by the British government are expended in Treland."

RAWLEY SPRINGS, VA., September 2.

—Specias.—"Ball Room Rock," one of the favorite walks at Rawley Springs is a smooth, sold, level bed of rock over which the clear stream of Dry river ripples gently. On one side of the rock the mountain slopes gradually up covered with a langle of vivid green trees and underbush, while on the other a grim wall of stern rock rises straight up from the river. Further down the stream huge boulders turn the water aside and cause it to swirl with a hollow sound around the base.

One of the curiosities of the place is a pine tree growing out of the solid rock.

At 5 o'clock on Monday evening a most charming and original tea was given on the lawn of Rawley by Mrs. Charles E. Bolling, of Richmond, and Mrs. Horace W. Jones, of Newport News. Refreshments were Served in the band-stand which all enjoyed with the zest that open air gives to a feast.
